November 2, 3, & 4...Marion County 6 - 9 PM. Traditional Hunter Education Course at Sam Murphy WMA Check Station, Marion Co., Rd. 2, Pikeville. No fee. Call Michael Raburn at (256) 353-2634. Successfully completing an approved hunter education course is mandatory for all non-supervised Alabama hunting license buyers born on or after August 1, 1977, with some exceptions. There are courses being taught at various locations in November as well as online-only courses. Contact Maria Futrai at 800-245-2740.

November 3...Autauga County. Progressive Agriculture Safety Day (Kids Only) at H H Kirkpatrick Agricultural Pavilion, Autaugaville. Kindergarten, First, and Second grade students. Third grade students on November 17. Contact Yvonne Bowens-Thomas at (334) 201-5209.

November 3-4...Statesboro, Georgia. Longleaf Pine Establishment and Management at Bulloch County Ag Center, 151 Langston Chapel Road. Come learn more on effectively managing longleaf pine stands with an emphasis on early survival and growth. Fee: $210. Lunch included. Contact Ingvar Elle at (706) 583-0566.

November 4...Currie, North Carolina 9 AM - 3 PM ET. Forestry For Women at landowner property, 2324 Borough Road, Call Pender County Extension Office at (910) 259-1235.

November 5...Blount County 9 AM. Natural Resources Planning Committee Meeting at the USDA Service Center, 55545 US Hwy 231, Oneonta. Forest landowners invited to attend. Contact Merry Gaines at (205) 274-2363x3.

November 9...Baldwin County 8 AM - 4 PM. Chainsaw Safety Workshop at 8300 State Hwy 104, Fairhope. The workshop will provide basic training in the following areas: Personal Protective Equipment, Proper Operation and Handling, Felling Procedures, and Chainsaw Maintenance. Contact Beau Brodbeck at (251) 937-7176.

November 10...Columbia, South Carolina 8 AM - 5 PM ET. Timber Income Tax Workshop at Sandhills Research and Education Center, 900 Clemson Road. The fundamentals of handling timberland assets, deducting timberland expenses for management and protection and obtaining capital gains treatment of timber income are stressed. Instructor: Dr. Harry L. Haney, Jr. Fee: $200. Contact Susan Guyan at (864) 656-0606.

November 10...Covington County 1 - 3 PM. Anniversary Celebration of the Solon Dixon Forestry Education Center at at Solon Dixon Forestry Education Center, 12130 Dixon Center Road, Andalusia. The celebration will include a short program that will outline the impact of the Dixon family on sawmill towns and forestry with refreshments and socializing. Contact Heath Crazier at (334) 844-2791.

November 10...Covington County 5:30 - 7:30 PM. Feral Hog Workshop at the USDA Ag Service Center Auditorium, 23952, Alabama Hwy 55, Andalusia. Topics: Integrated Wild Pig Control, MINE Trapping System, Capture Success Matrix, QRF Baiting, Dumbing The Sounder, Ambush Trapping, and Fatal Funnrel. Call Lisa Harris at (334) 301-9603.

November 10-11...Athens, Georgia. Forest Roads in the Piedmont and Coastal Plains at Flinchum's Phoenix, Whitehall Forest, 650 Phoenix Road. This course will teach you how to plan, design, locate, construct, stabilize, use, maintain, and close forest roads. Fee: $345. Contact Ingvar Elle at (706) 583-0566.

November 11...Elmore County 12 PM. PALS (People Against A Littered State) Governor's Awards at Marriott at Capitol Hill, Prattville. Call Alabama PALS at (334) 263-7737. Visit the Video Meetings page on the AFOA website to watch Margaret McElroy, State Adopt-A-Mile Coordinator, speak at the 2015 AFOA Annual Meeting.

November 13...Coffeeville, Mississippi 8:30 AM - 4 PM. Extreme Weather Events and Risk Management Options for Family Forests at Yalobusha County Extension Office, 18025 Hwy 7. Topics will include: Timber Salvage, Timber Casualty Loss, Species selection for Survival, Even/Uneven-aged Management, and Preparation for Future Weather Trends. Fee: $35; lunch included. Call Pamela Redwine at (662) 675-2730.

November 13...Morgan County 9 AM - 4 PM. Sustainable Forest Management Workshop at Joe Wheeler Wildlife Refuge Visitor Center, Visitor Center Road, Decatur. Topics (tentative): Improving wildlife habitat through prescribed fire, Treating non-native invasive species, Shortleaf pine restoration, and Cost share programs. Registration is required as lunch will be provided. Contact Chris

GROWING STRAIGHT TALL PINES may be worth the effort. Look at the big space between pine power poles versus pine sawtimber. That space is value difference. Perhaps growing the naturally straighter longleaf pine is not just a PC diversion.

WORTH YOUR TIME. If you haven’t paid much attention to the use of herbicides to aid you in your forest management work, we think you would benefit from watching Michelle Isenberg’s presentation from AFOA’s April 2015 Annual Meeting. Go to www.afoa.org/meetings/AM2015/agenda.htm and scroll down to Forest Herbicides to Improve Production.

LANDOWNER HELP WANTED: Auburn University Forestry Professor Ed Loewenstein needs your help. He is looking for landowners who would like to have his senior forestry students develop a management plan for their property. Ideally, tracts should be within an hour’s drive of the AU campus and be approximately 300-600 acres in size (but this is negotiable). Senior Project takes place during the spring semester, so students would be working with you from January through April. Contact Ed at (334) 844-1069 or loewenstein@auburn.edu.

OAK SAWTIMBER holds a long-term price advantage over mixed hardwood sawtimber. Data source: Timber Mart-South.

597± acres in Dallas County. Will Divide into 157, 207, or 390 acre blocks. 3 lakes totaling 26± acres. All divisions have Paved road frontage, Merchantable Hardwood & Pine, and Utilities. Great Deer, Turkey, and Duck Hunting, located in the Black Belt and the South Zone. $1,850/ac.

1,181± acres in Lowndes County. Will Divide in any feasible manner. Merchantable Pine Plantation, County Road Frontage w/ Utilities, Large Creek w/ Hardwood bottoms, great Road/Trail system, 25 Food Plots, good neighbors. 30 Minutes from I-65, located in the Black Belt and the South Zone near Collinere. $1,750/ac.

Contact Clint Flowers, A&M Forest, (251) 387-0787.

Forested landowners interested in student involvement at AU are encouraged to contact Ed Loewenstein. They are looking to manage their properties for the long term. You can be part of this important study if you have a tract of land within a 1 hour drive of Auburn University’s campus.

Holmes Hendrickson of Enterprise is the Alabama regional manager for Southern Forestry Consultants, a full-service forestry consulting company headquartered in Bainbridge, Georgia. With offices in three states, they offer the personal touch of a smaller business, but can pool resources to complete bigger projects, such as large-scale inventory/appraisals on private and government land. “We have the experience and staff to do just about anything to a piece of land. We plant a lot of trees, sell a lot of timber, burn a lot of acres. We’ve built ponds, roads, anything a landowner might need.” Hendrickson himself wears several hats as a registered forester, regional manager, and real estate professional. He specializes in longleaf management. “That’s one thing I’ve found rewarding in my personal career,” he says. “I’ve been fortunate to plant a lot of longleaf and manage them. I like helping people evaluate what they have and make plans for future generations.” Southern Forestry Consultants can also provide wildlife management through its wildlife division, Wiregrass Ecological Associates. They do game management and a great deal of conservation work, especially with the red-cockaded woodpecker and gopher tortoise. “We’ve found it’s an integral part, and we strive to offer all parts of land management,” Hendrickson says.

Castleberry Wood Products in Castleberry, Alabama is a hardwood sawmill producing railroad crossties. IndusTREE Manufacturing purchased the mill in 2008 from Boatright Railroad Products, in partnership with Bass Lumber Company. Castleberry’s crossties are manufactured in three sizes: 6” x 8”, 7” x 8”, and 7” x 9”. Larry Jones, president of IndusTREE, says railroads are his primary customers, and right now they are investing in infrastructure. “There are over 3,000 crossties in one mile of railroad track, so there are a tremendous number of crossties all up and down the United States,” he says. They use red and white oak as well as sweet gum, which once had a reputation as only a problem tree. However, it’s great for crossties, and brings more money right now than a pine plylog. The Castleberry mill produces about 100,000 crossties per year and sends them on to treating facilities. They buy logs primarily from dealers, who sort the hardwoods from the timber they buy from private landowners in the region. There are also by-products to sell to other manufacturers, such as oak lumber for flooring, sweet gum boards for pallets and frame stock, wood chips for paper, and sawdust for boiler fuel. Jones says he’s been surprised by the consolidation in the industry over the last ten years, but IndusTREE has clearly adapted well to the changes.
Federal income tax laws can influence a private woodland owner’s financial decisions about land management. Yet, special favorable tax provisions on timber are commonly unknown. To help woodland owners in filing their 2015 tax returns, this publication explains the federal income tax laws on timber. The information is not legal or accounting advice. It is current as of September 30, 2015.

Timber Property Classifications

For tax purposes, a woodland property may be classified as an investment, business or personal-use property. Tax deductions and losses that are allowed for investment or business properties may be limited or denied for personal-use property. So the classification is important in that the tax treatment on each type of property differs widely. If your primary purpose of owning land is for personal enjoyment (such as fishing and family retreat), your property may be taxed as personal-use property. In contrast, if your primary purpose of land ownership is for making a profit from growing timber, your timber may be taxed as an investment property or a business when such profit-seeking timber activities are more regular, active and continuous than an investment. Which status applies depends on the specifics of each case. The IRS assumes a profit motive if profit is realized in at least 3 of the past 5 years. Such profit, however, includes expectation of profit motive if profit is realized in at least 3 of the past 5 years. Thus, whether your property is classified as an investment, business or personal-use property determines your tax treatment.

Example 1: Mr. Smith sold timber for $20,000 profits in 2015. He replanted the land with lobolly pines. He treats his woodland property as an investment.

Basis and Depletion Deduction

Timber basis. Basis is the cost of the timber to the owner. You may deduct it from timber sales, which reduces the tax due on the sales. To establish the timber basis, find out how the property was acquired. For purchased property, the timber basis is the amount you paid for it. For inherited property, the basis of the timber is its fair market value (FMV) on the decedent’s date of death. If you receive the timber as a gift, the timber basis is the lower of its FMV or the donor’s basis.

Example 2: Mrs. Anderson inherited forest land a year ago but didn’t establish the timber basis. A consulting forester provided a report that showed the property’s current timber value on the date of the decedent’s death, which established her timber basis.

Depletion. Depletion is a deduction against timber sale.

Example 3: Mrs. Anderson sold 600 cords of pulpwood. She took depletion deduction of $6,000 ($10,000 of total timber basis ÷ 1,000 cords of total volume x 600 cords of timber sold).

Timber Sales

Sale of standing timber. Sales of standing timber held as an investment for more than 1 year qualify for long-term capital gain, which is taxed at advantageous lower tax rates than ordinary income. Sale of inherited timber is considered long-term. Report the sale of standing timber held as an investment on Form 8949 and Schedule D.

Example 4: Mrs. Anderson sold 600 cords of pulpwood. She took depletion deduction of $6,000 ($10,000 of total timber basis ÷ 1,000 cords of total volume x 600 cords of timber sold). She took depletion deduction of $6,000 ($10,000 – $4,000).

Timber Sales

Selling cut products in a business (under sec. 631(a)), or sell cut products in a business (under sec. 631(a)) all the way to the point of sale. However, there is no exception for owners who only have an occasional timber sale, defined as one or two sales every 5 years. Thus, if you receive a payment from a qualified business, you may exclude part or all of the payment from your income if the cost share is used in capital expenditure. Otherwise, it is ordinary income. Qualified programs also qualify for exclusion. The excludable amount is the present value of the greater of $2.50 per acre or 10 percent of the average annual income from the affected acres over the last 3 years.

Example 9: You sold timber for $3,900 cost-share payment from the Conservation Reserve Program and used it as capital expenditure for your 100-acre woodland. If you had no income from the property in the last 3 years, you could exclude up to $4,798 ($2.50 x 100 acres x 2.5%).

Depreciation of the enhanced provision from 2006 to 2014) of the taxpayer's AGI in a year. Any excess donation over the 30 percent limitation (sec. 179 expensing). Land is not depreciable.

Cost-share Payments

If you receive a cost-share payment from a qualified government program, you may exclude part or all of the payment from your income if the cost share is used in capital expenditure. Otherwise, it is ordinary income. Qualified federal programs include the Forest Health Protection Program (for southern pine beetle and mountain pine beetle), Conservation Reserve Program, Environmental Quality Incentives Program, Wildlife Habitat Incentives Program, and Wetlands Reserve Program (discontinued Feb. 7, 2014). Several state programs also qualify for exclusion. The excludable amount is the present value of the greater of $2.50 per acre or 10 percent of the average annual income from the affected acres over the last 3 years. The interest rate is from the Farm Credit System Bank. If you had $6,600 of income from the property, you could exclude the entire payment: (10% x ($6,600 + 3%) x 5.21% = $4,222 > $3,900. Attach a statement to your tax return describing the program and your calculations.

Timber Casualty and Theft Losses

Loss of timber from a casualty—a sudden, unexpected and unusual event such as a fire or severe storm—may be deductible from your taxes. The deduction is the lesser of the decrease in FMV caused by the casualty or your basis in the timber block (the area you use to keep track of your basis). Similarly, a theft loss deduction is limited to the lesser of the decrease in FMV or your basis in the stolen timber. A competent appraisal usually is required.

Filing Form T (Timber)

You must file Form T (Timber), Forest Activities Schedule, if you claim a timber depletion deduction, sell cut products in a business (under sec. 631(a)), or sell cut products in a business (under sec. 631(a)). However, there is no exception for owners who only have an occasional timber sale, defined as one or two sales every 3 or 4 years.

Conservation Easement

You may take a deduction on qualified conservation easements in 2015. Absent of new legislation extending the enhanced incentives, the deduction is up to 30 percent (vs. 50 percent or 100 percent if qualified by the enhanced provision from 2006 to 2014) of the taxpayer's AGI in a year. Any excess donation over the 30 percent limit may be carried forward to the next 5 years.

(CALANDER OF EVENTS CONTINUED FROM PAGE 1)

starting about 6:45 PM. Limited seating. Walk-ins may not have a seat. To attend, RSVP AFOA at (205) 987-8811.

DECEMBER 2015

December 3...Yankeetown, Florida 9 AM - 2 PM ET. Property Tour of the Withlacoochee Gulf Preserve, 1001 Old Rock Road, Fee: $10; lunch included. Contact Chris Demers at (352) 846-2375.

December 3...Elmore County 5:30 - 9 PM ET. Basket Weaving at the NaturePlex Community Room, 3050 Lanark Road, Millbrook. Instructor: Betty Bain. All materials provided. Come learn to weave a basket of reeds. Fee: $20. Call the Alabama Wildlife Federation at 1-800-822-9453.

December 4...Elizabethtown, North Carolina 8 AM - 4 PM ET. The Growing Interest in Longleaf Pine at Bladen County Center, 450 Smith Circle Drive. This workshop will provide information on growing, restoring, and marketing longleaf pine. There will also be an optional afternoon field tour. Fee: $10. Contact Kelley McCarter at (919) 515-9563.

December 7-8...Athens, Georgia. Southern Forestry and Natural Resource Management Geographic Information Systems (GIS) Conference at The Georgia Center for Continuing Education. This conference encompasses topics related to the use of Geographic Information Systems (GIS) in forestry and natural resource management. Fee: $275; $25 discount if paid by November 13. Contact Ingvar Elle at (706) 583-0566.

December 8...Vicksburg, Mississippi 9 AM - 3:15 PM. Synthesis of Information and Views on CRP Hardwood Plantation Management Short Course at Vicksburg Public Library, 700 Veto Street. Topics will include: Review of Conservation Reserve Program (CRP) Hardwood Plantings, Stages of Succession in Hardwood Plantations, Thinning, Hardwood Plantation Silviculture, and Growth and Density Management Considerations for Young Planted Hardwood Stands. Fee: $45; lunch included. Call Anna McCain at (601) 636-5442.

December 8...Gainesville, Florida 9 AM - 3 PM ET. Longleaf Pine Restoration and Management Workshop at Prairie Creek Lodge, 7204 SE County Road 234. This workshop will explore the role of biomass chipping in longleaf restoration projects, longleaf forest management, and available assistance programs. Fee: $10; lunch included. Contact Chris Demers at (352) 846-2375.

December 8-9...Athens, Georgia. Deer Ecology and Management at Finchum’s Phoenix, Whitlehall Forest, 650 Phoenix Road. This course will benefit those interested in wildlife management on their land, especially deer enthusiasts. Fee: $325; $75 discount if paid by November 17. Contact Ingvar Elle at (706) 583-0566.

JANUARY 2016

January 20...Montgomery County 8 AM - 3:30 PM. Annual Nonpoint Source Conference at Renaissance Hotel Conference Center, Montgomery. The conference format consists of presentations on projects, topics, efforts associated with non-point source pollution and its impact on water quality. Call Patti Hurley at (334) 394-4350. Editor’s Note: Nonpoint Source Water Quality Regulations have a direct affect on the management of, and income from, your land.

January 20...NATIONWIDE 10:00 AM (CT). CAPITAL IDEAS - LIVE! 30-minute Telephone News Conference for Alabama Forest Owners. Listen on your phone or later on the web. Dinner & Discussion events are tentatively planned for Thursday, January 21 at 6 PM in Fort Payne, Birmingham area, and Tuscaloosa.

ALABAMA LENDERS & FARM LANDLORDS

Our Roots Are In Financing Land, Equipment, Operational, Cattle, Refinancing

1-800-579-5471

AlabamaAgCredit.com
Creating a wildlife habitat is our business.

PHIL AND SUSAN have had enjoyable experiences renting out a small guest house on the property through two different websites, AirBnB (www.airbnb.com) and Vacation Rentals By Owners (www.vrbo.com). They just started last year and so far guests have included a couple from Missouri, a group from Manhattan and others from France, India, and Canada. He said the guests enjoy the opportunity to get out in nature and off their cell phones for a bit (an easy thing to do with limited reception), and proceeds from cottage rentals help cover nominal costs of the property such as taxes.” Source: Member Profile, The New York Forest Owner, Sept./Oct. 2015.

W O U L D YOU LIKE TO FLY A D R O N E AND TAKE A E R I A L P H O T O S, BUT you hate the idea of crashing the $1,000 gadget while learning? Maybe the answer for you is a drone simulator. Check out the RealFlight Drone Flight Simulator to “master the aerial camera.” $129.99. Available at local hobby shops or go to www.realflight.com/drone/index.html. Editor’s Note: I’ve played with RealFlight’s other simulators and found them quite realistic and lots of fun.

“SOUTHERN PINE DECLINE isn’t happening on a large scale.” “There isn’t a big problem. Stay the course on established management practices,” said David Coyle, a post-doctoral researcher at the Warnell School of Forestry and Natural Resources at the University of Georgia. Source: Georgia Forestry Today, Sept/Oct 2015.

LYME DISEASE ‘ENDEMIC’ in 7 Alabama counties. The disease spread by ticks is present in Calhoun, Chambers, Jefferson, Mobile, Russell, Shelby, and Tuscaloosa counties. Source: www.AL.com, 10/12/15.

LETHAL is a new bug and tick repellent that is reported to be more effective than DEET.

“EMINENT DOMAIN IS WONDERFUL,” says Donald Trump. That’s one.

“BASED ON ALABAMA LAW, it is a Class B misdemeanor to have an abandoned well that is not protected in order to prevent someone from falling in.” Source: Alabama’s Treasured Forests, Summer 2015.

ALABAMA’S PICKENS COUNTY 4-H FORESTY TEAM earned third place at the 2015 National 4-H Forestry Invitational. Teams from fourteen states competed in the event in Weston, West Virginia.

92% OF ALABAMA HUNTERS are residents of the state. One in three non-resident hunters coming to Alabama is from Florida. Source: Great Days Outdoors, 10/15.

19.6 PERCENT BUDGET CUT FOR ALABAMA FORESTRY COMMISSION. Perhaps it’s time for the Commission to reset priorities and focus on fires that damage productive forests that are vulnerable to fire damage. The old paradigm of scoring success by reducing acres burned needs to change. Refocusing protection efforts on forests instead of houses and other structures will not be an easy task for an agency which seeks its funding from lawmakers not particularly interested or knowledgeable about Alabama’s forest resource.

THE BLACK PINESNAKE was listed as Threatened by the U.S. Fish & Wildlife Service according to a 10/5/15 press release.
