## REGISTER FOR ONE OR BOTH!

Educators throughout Alabama have loved and participated in Teachers Conservation Workshop since 1970. This year workshop organizers offer two workshops, creating the new Teachers Conservation Workshop series. Register for one or both workshops!

Both workshops incorporate field trips and hands-on activities. Receive training and environmental education materials from Project Learning Tree. Agri-science and high school teachers will be eligible to take the Forest Worker Career Readiness Indicator (CRI) test upon completion of either workshop.

Participants are provided with housing in double occupancy rooms in downtown Tuscaloosa or Auburn. All rooms will be shared with other educators/workshop participants. Encourage teacher friends to attend! Roommate requests are allowed. The \$50 workshop fee covers the cost of double occupancy room, meals, field trips, and all workshop materials.
