HuntStand Stand Reservations

Use the new Stand Reservation feature to easily allow members of your Group Hunt Area to reserve available stands on the property. This feature is available to HuntStand Pro subscribers. Follow the directions below to create and delete your stand reservations on any Group Hunt Area, as well as to manage stand availability of any Group Hunt Area for which you have the rank of Owner or Admin. You need a solid WiFi or data connection to create and manage stand reservations on the app. You do not need a WiFi or data connection to view existing stand reservations on the app.

If you are unfamiliar with Group Hunt Areas and Sharing on HuntStand, I've included information on this topic below the directions for using the Stand Reservation feature.

Reserve a Stand (Check Availability of a Specific Stand)
1. Select a Group Hunt Area from the drop-down menu displayed on the main screen or Map Editor screen.
2. If you're viewing the main screen, tap the STAND RESERVATIONS square below TOOLS. If you're viewing the Map Editor screen, tap the RESERVATIONS button at the bottom of the screen.
3. Tap the RESERVE...LIST tab on the Stand Reservations screen to view a menu with STANDS and RESERVATIONS tabs.
4. On the STANDS tab, you will see a list of stands available for reservations on this Group Hunt Area. Tap the name of the stand you want to reserve.
5. You will see a list of existing reservations for this stand. Tap the RESERVE button above this list.
6. On the RESERVE THIS STAND screen, select the desired date and time range for your reservation.
7. Tap CHECK AVAILABILITY.
8. If the stand is available for the entirety of the time you selected, you will see a message stating that the stand is available. Tap SUBMIT RESERVATION. If the stand is not available for a

portion or the entirety of the time you selected, you will see a message stating that the stand is unavailable. Adjust the date and time and check the availability again.

9. Tap OK. Your stand is reserved. The reservation does not need to be confirmed by any other member of the Group Hunt Area. Your name will appear above the stand marker on the map on the Stand Reservations screen during the time of your reservation.

9. Tap OK. You successfully reserved the stand. The reservation does not need to be confirmed by any other member of the Group Hunt Area. Your name will appear above the stand marker on the map on the Stand Reservations screen during the time of your reservation.

2. Tap MANAGE STANDS.
3. By default, all members of a Group Hunt Area are allowed to make reservations for any stand on the Group Hunt Area. Uncheck the box beside ALLOW STAND RESERVATIONS FOR THIS HUNT AREA, and the box beside the name of each stand will be unchecked.

5. Alternatively, check the box beside ALLOW STAND RESERVATIONS FOR THIS HUNT AREA, and the box beside the name of each stand will be checked.
6. Uncheck the box beside the name of each stand for which you do not want to allow reservations to be made. These specific stands will be unavailable for reservations even if the box beside Allow Stand Reservations for this Hunt Area remains checked.
When the Reservable box is unchecked, the existing reservations for that stand remain active. The Owner and Admins of that Group Hunt Area have the option to delete the existing, upcoming reservations for that stand.
